

Oscar Omar Cruz Bernal

MOBILE APP DEVELOPER

PROFESSIONAL SUMMARY

Mobile App Developer with 7+ years of experience building, maintaining, and publishing native Android (Kotlin, Java), native iOS (Swift) and hybrid mobile applications (Ionic, Angular, Capacitor). Strong background in financial, mobility, and privacy-focused applications, including offline-first Android apps with advanced encryption. Experienced in Android KeyStore, AES/GCM encryption, Clean Architecture, and Agile/Scrum environments.

CORE SKILLS

- Android: Java, xml, Kotlin, Jetpack Compose, MVVM
- Android KeyStore
- iOS: Swift, Xcode, CocoaPods
- Hybrid: Ionic (v8), Capacitor, Stencil.js
- AES/GCM/NoPadding encryption (256-bit)
- Offline-first architecture
- SOLID principles, Clean Architecture, Use Cases

FRONTEND & WEB

- Angular, TypeScript, JavaScript, Ionic
- HTML5, CSS3, SCSS

BACKEND & APIS

- Node.js
- RESTful API integration

TOOLS & PRACTICES

- Git (branching, pull requests)
- CI/CD pipelines
- Scrum / Agile methodologies
- Google Play Store & Apple App Store publishing

PROFESSIONAL EXPERIENCE

Mobile App Developer

IDS Comercial S.A. de C.V. – CDMX

April 2022 – June 2025

Mobile development lead for Banamex BancaNet Empresarial Mobile (iOS and Android).

Led migration and maintenance of enterprise banking applications.

Implemented secure modules including CoDi, authentication, data encryption, and full app rebranding.

Designed and implemented encryption mechanisms for sensitive data using industry best practices within enterprise banking applications.

Worked with Swift, Java, Angular, Stencil.js, and Capacitor.js.

Managed the full application lifecycle: requirements analysis, development, testing, QA, and deployment.

Coordinated releases across UAT, AVA, and Production environments.

Key Projects:

CoDi Next-Gen Migration (2022–2023)

BancaNet Empresarial Mobile CoDi VA (2023–2024)

Rebranding Phases 1 & 2 (2024–2025)

Mobile App Developer

SoftTIM S.A. de C.V. – Morelia, México

October 2017 – April 2022

Developed applications for the tourism and mobility sectors.

Worked on native apps (Android/iOS) with Swift, Java, hybrid apps with (Ionic) Typescript, Capacitor.js

Managed the full application lifecycle: requirements analysis, development, testing, QA, and deployment.

Integrated mobile applications with REST APIs using Node.js.

Notable Apps:

Mobility Private, D*vago, Haz Barrio, Redal, Discover Cancún, GOtoPM, e-Cozumel

Mobile App Developer

DSI S.A. de C.V. – Morelia, México

August 2019 – December 2019

iOS development using Swift 5, Xcode, and CocoaPods.

Hybrid mobile development using Ionic v4.

Apps:

Cabastic, Geni-app

PERSONAL PROJECT – PUBLISHED ANDROID APP

Daily App – Offline Secure Task Manager

Google Play Store (August 2025 - Present)

<https://play.google.com/store/apps/details?id=com.oscarcruz.mydayliactivities>

- Designed and developed a native Android application using Kotlin and Clean Architecture.
- Implemented offline-first architecture with Room Database for local persistence.
- Secured sensitive data using AES/GCM/NoPadding encryption (256-bit).
- Implemented Android KeyStore with hardware-backed key storage.
- Developed a custom CryptoManager for encryption and decryption of sensitive fields.
- Used Encrypted DataStore for secure user preferences.
- Applied MVVM architecture, Use Cases, and Hilt (Dependency Injection).
- Ensured zero data collection (no cloud sync, analytics, or third-party tracking).
- Published and maintained the app on Google Play Store following Android security best practices.

Tech Stack: Kotlin, Android SDK, Room, Android KeyStore, AES/GCM Encryption, Encrypted DataStore, Hilt, MVVM, Clean Architecture, Lottie, Java

EDUCATION

Computer Systems Engineering

Instituto Tecnológico Superior de Ciudad Hidalgo

Michoacán

2012 – 2017

Degree completed

CERTIFICATIONS & COURSES

- Clean architecture and SOLID principles for android in kotlin – Udemy (February 2025)
- OKR Certified Professional – OKR Institute
- Jetpack Compose: Curso definitivo desde 0 [2025] – Udemy (September 2025)
- Curso Completo de Programación con Kotlin Desde Cero – Udemy (September 2025)
- Aprende Ionic 8 con proyectos prácticos – Udemy (August 2025)
- Curso de CSS3 desde cero a avanzado – Udemy (October 2024)

LANGUAGES

- Spanish: Native
- English: Basic
